Customer Reviews

My son LOVES these books! We have purchased every one of them. For an eleven-year old kid who dislikes reading immensely, I'm amazed every time I find him engrossed in the pages of these books; in fact, he keeps them all stacked by his bed. Then, he'll call me in and before I know it, we are BOTH engrossed in the incredibly interesting facts on each page. The only downside is that time will slip away from you as you find you (as an adult) can't step away from the pages...Keep making these books National Geographic--we want more!

My daughter can't get enough of these, we read them together, and she can't put them down herself, I never would've guessed my 9-10 YO would be interested in this stuff, but it makes sense, I think most of us were looking for all kinds of odd stuff when that age (and maybe still are, I've

enjoyed sharing it with her;-]). I think this is maybe book 3-4 of this series, she can't get enough!

Purchased for 9-year old child. Lots of beautiful photos along with interesting details and facts. A prior edition was available in the school's library; and when she was fascinated and read independently, this was a natural purchase.

I bought this for my great grandson who is 6. He picked it up immediately and began looking through it. He really uses it a lot. The photos are great and there are many interesting facts. I think it is very well done and really holds children's interest.

Really great book. The kids enjoy flipping through it and reading their favorite "weird but true" stories to me. As a mom looking for children's entertainment that does NOT include a screen, this book has been a fantastic.

My 9 y.o son loves this book, and I do too!

MY REVIEW: This book is one of the BEST I have seen! It is awesome how it is laid out!!! It is like a vision sensation! There is so much to look at and read! I am sure that you could read this over and over and over and learn something new! Here is a fun tidbit: It is illegal for travelers to take more than \$5 in pennies out of the United States and you can ride a ferris wheel underground in Romania! Learn about so much awesome and wacky facts in this book! It is jam packed with things that I find fun, interesting and oh so strange! My kids are going to love this book so much too!! 5 stars

My kids absolutely love this book!....I highly recommend it to any curious and imaginative child!
