Customer Reviews

My daughter (age 5) got this set for Christmas. We read a few chapters each night at bedtime and both really enjoyed the books. I love that these stories are fun and engaging for young children without the bad language/behavior that is found in other popular series (like Junie B. Jones). I think my daughter will enjoy re-reading these many times over the next few years. I will be ordering the

next 3 books for her birthday in August.

Amelia Bedelia is the perfect choice for your child as she delves into chapter reading. My daughter loves this series! If you aren't familiar with Amelia Bedelia, she is a very literal girl who misunderstands just about everything. Hilarity and hijinks fill the pages and will keep even the reluctant reader coming back for more.

I ordered these books for my 8 year old granddaughter who is struggling to keep up with her class on reading. The books have helped her to see that reading CAN be fun! She's enjoyed the books, and reads herself to sleep almost every night.

My second grader is loving these books and they are actually pretty entertaining even for me!

My six year old granddaughter cannot stop reading this. She reads it out loud whether we want to hear it or not. Amelia is timeless.

Definitely not the Amelia Bedelia I'm used to. This isn't as clever and witty, not horrible but not what I expected. My son loves the older books but quickly lost interest while I was reading the first story in this set. Also, no stickers..

My daughter and I love reading these books together, and they're also easy enough for her to read on her own (she's 6 and a very advanced reader for her age). We love Amelia Bedelia, these books have given us many laughs together. I will be buying the next box set for her so we can continue to enjoy this great character!

I remember reading Amelia Bedelia when I was a kid and I loved it. Amelia stories are hilarious fun for kids as she takes everything quite literally. For example, when told to "hit the road" she would quite literally go outside and smack the road. This set comes with the first 4 books in a sturdy cardboard case and even includes stickers. We purchased the set for our daughter since she is just starting to get into bigger chapter books and while the illustrations are quite different now than they were when I had originally read them in the 90's, it's still the same stories. I'm looking forward to reading them with her at night.
