Women In Scripture: A Dictionary Of Named And Unnamed Women In The Hebrew Bible, The Apocryphal/Deuterocanonical Books, And The New Testament

Synopsis

Available here for the first time in paperback, *Women in Scripture* is a landmark one-volume reference work exploring all the women mentioned in the Bible, named and unnamed, well known and heretofore not known at all. The book comprises more than 800 articles, written by the finest scholars in the field, that examine the numerous women who have often been obscured by the androcentric nature of the biblical record and by centuries of translation and interpretation that have paid little or no attention to them. The women of scripture are remarkably varied--from prophets to prostitutes, military heroines to musicians, deacons to dancers, widows to wet nurses, rulers to slaves. Here are familiar faces, such as Eve, Judith, and Mary, seen anew with the full benefit of the most up-to-date biblical scholarship. But the most innovative aspect of the book is the section devoted to the many women who in the scriptures do not even have names. In both scope and accessibility, *Women in Scripture* is an exceptional work. Combining rigorous scholarship with engaging prose, these articles on women in the Hebrew Bible, the Apocryphal/Deuterocanonical books, and the New Testament will inform, delight, and challenge all readers interested in the Bible.

Book Information

Paperback: 608 pages

Publisher: Eerdmans (August 28, 2001)

Customer Reviews

This is not as specialized a reference work as you would suspect from the title. The six introductory articles are among the best I have read on the development of the canon, hermeneutics, and the status of biblical scholarship. These run a mere ten or sixteen columns each, yet feel comprehensive. They reveal the editors' infatuation with statistical information (numbers of male

named in the Bible vs. the number of females; the number of named women vs. the number of unnamed women; names that recur most frequently, etc.), and their interest in exploring what these statistics hint at. Clearly the editors and authors enjoyed creating this landmark publication. While the authors are not timid scholars, they seem to know when they have reached a dead end or hit an informational barrier. When the Bible is silent on an issue, they are comfortable acknowledging it. Also worth praising is the organization of the book. Part I consists of all the women named in the Bible (including the Deuterocanonical/Apocryphal books) in alphabetical order; Part II lists all the unnamed women (or groups of women, such as, "Daughters of Lot" and "Women at Vashti's Banquet") in Bible book order (following the NRSV sequencing) by their earliest significant Scripture reference; Part III, perhaps the most fascinating section, is a compilation of female deities and personifications (such as, "Asherah/Asherim," "Female Images of God in the Hebrew Bible," "Woman Wisdom," and "No 'Male and Female' in Christ Jesus"). While great care has been made in providing cross-referencing, there is no general index to the volume.
